Dr. Margolin and Staff:

Good Afternoon!

Wanted to share the very positive remarks that patients are making on comment cards about the care they receive from you and your staff.

"100% happy with doctor and his staff"

"Doctor and nurses were kind and gentle"

"everyone was polite and we breezed right through all the processes"

One patient commented that even though he had to wait due to an emergency, he felt the Doctor and Staff were great and he "loved the nurses"

"Margolin is one of the few doctors I know who will explain what's going on while looking you in the eye."

"The nurse and Dr. Margolin treat me with the utmost respect. They are concerned about my procedures and outcome".

It is always so nice to see such positive feedback!!

Bravo to you all!
